HP ProOne 600 intel i5 - 4570S CPU @ 2.90 GHz 2.9GHz

Mike Chisholm (Craig knows) bought computer for three schools in Nepal. That year Susnet made good profit as we distributed the computers. Now one of the school has another set of computers (light Microsoft terminal ones) and theses computers are to be sold. So personally and for Sussol we could buy two. One for skype conference room (the Mac downstairs is old and refuses to upgrade), the other to fill a desk for work/programming. Or we could buy a few more.
