Building from the side :

The 5ft Floor with roof access :

The 5ft Floor with lift and stairs :

Every one is keen on the 5ft floor.

Craig and we all would like to inclose the pillars with aluminium double - glazed windows.

For lunch we have access to open space at the edge of the flat.

Plus plenty of space to store all our bicycle.

This place would be great.... We would have to increase our support prices to afford it. Like our GRS contract.

The 5ft Floor with roof access from a corner :

The top roof for our Solar panel :

The Stairs to climbup to the roof :

Standard Buisness floor without roof access :

The landlord lives next door, so services should be good and taken care off :
